Since this docs is free for anyone to post in how hasn't anyone not posted NSFW yet

Molasses: Everyone is just nice

DON'T GIVE THEM ANY IDEAS ^ (:upvote:) (1)

:)

anyone wanna play gmod while we wait for the new stuff

BX: There is probably a way to turn the tv on, maybe the next reveals could show a way how to? Maybe a "remote" website or just some code to type out which will turn it on. Or maybe the tv will just be turned on by the end of the raffle? Though there is no inspect code which shows that anything such as could happen.

BX: Also has anyone tried searching for all the domains affiliated with deltarune.com? Not sure if it's possible but i'm guessing it is.

Metalblue: im gonna guess what will be shown in the tv is just the smile from the end of chapter 2

Molasses: Does anyone wanna play anything?

Metalblue: i would play gmod or any other shit but for now id rather pay attention for any new link

Molasses: Yeah, that makes sans

@putridApollyon: yeah i would like to play as well but like my pc is a garbage toaster, can barely run anything in it

3qc: Testing testing can you read this yes i can okay good my internet is bad changing my color

Welcome to holidaygirl1225's game secrets, glitches, and theories blog!

Today the official Dragon Blazers website was updated with a bunch of weird links.
I searched around the official website for clues, and found about 20 pages so far.
It doesn't seem to be an ARG, as there's no puzzles, and it doesn't lead to anything.
Anyone else think the devs might have been eating a little too much fruitcake this year? XP

20 to 22 !!!!! New discovery = the number grow.

Unkn0wn:Good eye blue!

Gtg for now I think see you later

@putridApollyon: talking like this is really fun even if its very chaotic

Metalblue: hey, wouldnt it be better if we talked in like discord or something, kinda odd that we are doing it on the doc itself

Endro: yea good ide a

@putridApollyon: no its more fun here

Chaos is fun

@putridApollyon: chaos chaos i can do anything etc

Metalblue: you right apoll, its fun talking to people this way

Metalblue: kinda getting irc vibes

@putridApollyon: irc?

Metalblue: internet relay chat, basically the discord of the 2000s/early 2010s

@putridApollyon: ah, yeah i was gonna say it reminded me of homestuck chatlogs lol, which is basically the same thing, since the comic uses them a lot

Unkn0wn:Just started Homestuck actually, only on ACT 4. though.(Dave is my current favorite)

@putridApollyon: act 5.1 is my favorite one lol, unsurprisingly (the one with the trolls)

Holy shit that's a lotta people

Metalblue: started reading homeastuck a few weeks ago, prolly should continue it

Metalblue: aka boutta descend into a rabbit hole

Unkn0wn:didn't homestuck give birth to the hellhole that is MPREG?

Pokeman: Hey, what does is the song in dreamer kris dreamer supposed to be?

Who posted that screenshot lol

@putridApollyon: me i got confused lmao, i was trying to copypaste my username and i had the screenshot copied

Metalblue: i just looked up what mpreg is and the first thing i see is a fucking inflated sans

Pokeman: Mpreg is baisically male pregnant

Purple guy: This is going to the github lol

Pokeman: Wtf

The internet is truly cursed

@putridApollyon: completely deserved for looking up mpreg

Unknown:TRUEEEE

Has anyone tried messing with that song Kris plays on the piano

Pokeman: I asked but no one ahs responded

Asking because it sounds very cryptic or creepy, its nice but it feels like something might pop up if we put it in a spectrogram or reversed it or something

Molasses: Homestuck is horrific

Metalblue: imagine if discord went extinct and talking in docs was the next big Thing

↑ Molasses: That would be amazing

@putridApollyon: complete chaos metalblue, im amazed this docs hasn't been vandalized yet

I think we all know what the "FAMOUS SKELETON FUNNY SONG BALL" is [it's sans undertale]

Unkn0wn: I hope next links gives us a look at who the chapter's boss will be.

Purple guy: I think that would only happen if we unlocked the body pillow

Metalblue: WILLIAM AFTON?

We still have 20 more hours im sure something will happen

Surely we'll unlock the body pillow in 20 hours

Endro: i hope sports becomes the most powerful character in chapter 3

Molasses: I wish Discord let you change fonts and text colour...

#BringBackUglyHTML

BX: i think that the pages are already made and exist but that whenever like 10+ people enter the website then it shows that "22 pages were found", not that more pages are being made or unlocked from the sweepstakes

Anyway what's everyone's opinions on sans sweeping the tumblr sexyman polls

UnknOwn: Offtopico
but: <https://www.roblox.com/catalog/10907193169/GAMEOVERSWEEP-Suit> this stuff is bussin

Purple guy: Should we do a little purge on the early messages from this chatroom

Endro: nah i think we should keep the messages

Metalblue: hey, i have an idea, we should make the doc into a dark mode and change the font to make it into a deltarune text box *Like how i've been doing LOL

Metalblue: just saying

Chapter ??? will take place in this google doc

Endro: TRUE

Molasses: Let's have a Discord server

Purple guy: maybe

A Deltarune Dark world of this doc would probably be hell

Yes it definitely would be hell itself

BX: if we do make a discord dont delete the early messages yet, perhaps we could archive the messages so people can see what it was like or what people were thinking whilst we looked for the pages and then put those archives in the discord. Could be cool.

Purple guy: Imagine it appears a 15th comment in the /code/comments/ page

That would be insane

Molasses: I have been archiving all of this non-stop in a frenzy

Molasses: I am actually going mad

Metalblue: gonna be honest with you, i kinda like talking like this, more unique than discord

Molasses: Me too but you guys are fun and I don't wanna lose touch!!!

***Make one after this event is over**

@putridApollyon: make a discord someone

Molasses: Okie

Purple guy: Are we gonna stop typing here when we make the discord?

↑ Molasses: We'll just have the server as a back up

I found about 23 pages so far.

Updated from 22 to 23

Matreats: YESSSS been waiting for it to do that - Okay so it's 100% manually updated then and someone is keeping a close watch on docs/twitter and whatnot :thank:

Is it the number of pages we've found or the number unlocked?

Wow, they made a brute force attack to find the link 0-0!

Yeah someone guessed it?? LMAO

Based???

You can email Holidaygirl1225@gmail.com, and there is a response by someone called al gailort (anagram for alligator??) saying they are not home but have a laptop :D
yeah!!

Wait - okay I just sent an email I'll see - Here's a screenshot :D - hehehehehehehhe

Al gailort

I am not home right now sorry you can still e mail me though i have a laptop

I think we are missing something... more spamTONN

Geez, emails are involved in this too?? That's impressive- Toby and the others are pulling out all the stops

I know!!  wait, so what was the 23rd page??

Hey guys there was something about Berdley having a randomised phone number? can't find any info about that though.

I tried calling the phoone number andd got something - lemme get a link

<https://twitter.com/LuckyFeath3rs/status/1571278758644187136?s=20&t=dHFCrWykCvoVICTC0nOSRq>

I cannot figure out how to record phone convos with sound for the life of me but I did put a transcription - idk if anyone's gonna believe me though LMAO

←[The pig is important]-->

Yeah, Berdly had a phone number in one of the chat log things, but I don't think it did anything? Somebody can check though

555 at the start of a number means it's fictional i think

Oh, the random strings were from an invalid number? Probably means nothing then.

Dang it :[

Would've been cool, but oh well- guess maybe a phone number would be a *bit* too far. I mean, we all learned from FNAF and the Mat Pat fiasco, right?

Ye a h

Do you guys think we'll make it to the next goal tn?
Hope so, that would be cool

I mean, timezones exist for a reason, so if some of us gotta dip off, we'll probably come back with a lot of new content, I suppose

Yeah i really should be asleep but i'm wayy to excited hjsdgdf

Nice noise texture btw, adding that to my pile of game dev imgs.

*WHO IS USING MY TEXT COLOUR

This discussion is giving me Homestuck vibes

Anyway I think Mike TV is deconfirmed for sure. The TV being crossed out seals the deal. Mike was really only theorized after Spamton says not to trust everything you see oin TV, and because the TV was implied to be the location of the Dark Wrold, most people thought Mike existed. Wlthout the TV being the dark world, Mike no longer has too much credibility

Also whoever typed MiRacLES: I can't even respond LOL. It's been a LOOOOng time since I've read homestuck haha.

Is Mike Teevee from Willy Wonka, geez

Legit I watched that Willy Wonka movie with my brother, and it became an inside joke, so seeing Mike TV be heavily theorized was a complete trip, haha.

I was wondering where you all got the Mike TV theory from, LOL

Lmao I read the book, both sucks tbh

Well, we know at least that the TV world is confirmed. Mike could be **be careful** something like Spamton or Jevil if anything

Hey, uh, heads up? The email might belong to a real person, please

Ofc! it seems to be an automated reply, so *hopefully* it's all good :']

Ye, it's either that or just a copy-paste - I do hope it's real, but either way, I don't wanna overstep boundaries, you know? Yeah hopefully skdjf

It's probably best to hold off on emailing them

Pretty sure we don't know much about where the dark world is. Seems it still fits all with the showbusiness stuff imo.

All of it seems to be connected to movies/genres, at least so far? Especially with the weather people- so maybe it could all be channels? At least for Chapter 3, we have no idea for Chapter 4 or 5

Yeah, i've also seen a theory that the silhouette people are the figures on the dreemur's windowsills. Or they could be noir films because of the black and white?

They remind me of Michael Jackson's smooth criminal.

The silhouettes could be thaaaat? But yeah, they could be from black and white movies, which is my personal lean to it

It's a reference to 1940s zoot suits, though, I think. Like mob bosses

I found an image of a 16x12 pipis. Should I add it here?

Always add pepis

The Michael Jackson thing is a given.

Give pepis pls

Anyone attempted to brute force words related to ch3?

yep but no luck so far :(

How about brute force for assets instead? Something like assets/images/...

ill try!!

also there's been a bunch of fakes floating around again

Has anyone figured out the image/video links for the prizes that are still locked?

Haven't tried anything else yet... more fakes? Dang it

<https://deltarune.com/assets/images/screengif> ?

Interesting, somebody slowed down the song on Lancered. It's Your Best Friend.

I thought it was just Lancer sped up?

Could i get a link? if its not too much of a bother cuz twitter is rly slow for me rn

https://www.reddit.com/r/Deltarune/comments/xh4fne/floweys_theme_in_lancered

/

Might just be a coincidence. It's definitely a different song, different instruments and different tempo, but it sounds really similar.

Toby just composes like that though, it could really just be a 'dun Dun dun Dun' that sounds vaguely similar, lol.

hmm.. ill check and come back

its a little different at the end i think.. the first 8 notes are def your best friend but then it switches a little

It's the same magical8bitplug instrument from YBF and it shares the same notes, but it's likely a coincidence. The YBF 'melody' is used alot in songs toby composes and it's often a coincidence so.. Still interesting! i cant help but laugh at that lancer gif tho.. along with that slowed music..

He's moving. Simply unstoppable.

his rotation is affecting the tides as we speak

This whole thing is really Exexciting but im so lost as well LOLLL

142k!!

Yeah, no, that's fair, there's a lot happening hrjff

142k!!

HMM

STOP DELETING PLEASE :(-NERU

Aw dang my talkings...

this was really.... suspicious when i first read it in the game.. and now with the arg we have going on im starting to wonder why ralsei's word choice was so specific

Yeah, it did seem weirdly specific, I didn't even know Ralsei knew what a 'program' was in the context of computers.

wait nvm i just remembered ralsei is aware of dark worlds being projections of the light world so maybe he just slipped up there

GUYS!! 143510/150000!!

the whole thing where ralsei was like 'dont worry about it just ignore it and go back' was so strange

Yeah, Ralsei brushing it off was weird, especially since even Susie was being more empathetic during that scene.

And that's like.. More Ralsei's thing.

ch2 had a lot of weird ralsei behavior

i put it back to before it turned green

so we lost a bit sorry

only like a minute through

Hold on, who just posted that candle video? I've never heard that audio before. That's freaky.

<https://spanton-prizes.fangamer.workers.dev/prizes/candle-video.webm>

It was on the video files part of this same doc lol

Was that always there????? That's kinda unsettling. I mightve just had my audio muted whenever I saw the video.

Man, this and pianpian.mp3 makes me convinced Toby should just make a horror game some day.
Undertale is already horror imo-Neru

Good idea.

oh i must've interpreted it differently i guess LOL. hold on im gonna re-read the blog post so i can word it how i meant to (also my phone is kicking my ass)
ok back

We'd play, and we'd play... then after a while, they would suddenly get very still, like they were remembering something.

They'd go into the dining room to "get a snack," then after a few moments, I'd hear the piano.

idk i just feel like this isn't the works of the soul cause I doubt they'd say kris is "going for a snack".. to me it feels like kris just wanted an excuse to play for a bit and wanted to pass by the piano (which from this description seems to be by the kitchen) then gets distracted by being too "in the zone"

Maybe. I guess I just interpreted it in a way creepier way, imagining him getting stone faced before playing this really jumbled up piano melody in a dark room at night.

-

awee am i the only one that thought that pianpian was nice? like i envisioned noelle listening to kris play while drifting to sleep.. which explains why it fades at the end

It's nice! But just a bit creepy too haha

This kinda reminds me of homestuck

theres a reason im using this font

By the way I think the conversation shifted but can we talk about how sus Ralsei is. Like all the time.

But like if homestuck was gayer oh yeah that font does make sense.

Any successful attempt to decode noise.png?

I've tried moving it over itself, nothing so far.

For reference, I think it could be this:

https://media.discordapp.net/attachments/602646253901447198/884843098553876510/vcsanimation_1.gif

I'm thinking of grouping 8 pixels together as a character, maybe?

I messed with noise in aseprite for a while and I'm not sure it's anything related to the patterns of the static. It does have a unique shape to most noise i've seen

though, most of the time its alot more jumbled and random. There MIGHT be something there, but who knows.

Is noise.png we got from brute force or does it being linked from known page?

As far as I'm aware, it was bruted. Haven't seen a site use it yet.

Anyone really wanna take a big sniff of this?-Neru

Discord is a mess right now, any progress here?

BEGGING for people to stop thinking the phone number is fake, it directs you to an actual government broadcast, the US Master Clock broadcast to be specific. My dad used to be in the navy, and he confirmed it's the exact same voice he heard all the time. Really curious what this means for the ARG.

Which phone number? 5554738292? It IS fake, 555 can't be a real number. Unless you mean another one.

It was that one, actually! Most likely redirected me to a real number.

Interesting, but most people are getting negative results from the number, although I don't think we should discard it. It's not there for no reason.. Probably.

Yeah, that'd be a really strange thing to have for no reason. It seemed like the people saying it was fake didn't actually try it.

The number itself doesn't work for most people, and only like, 3 or 4 people have gotten any results from it, so it's safe to assume actually calling the number itself is a dead end. The number might have some significance in another part of the "ARG" but otherwise, yeah.

No it's definitely fake. The 555 is used for fictional phone numbers in tv shows and stuff. I think the results people got were saying it was incompatible or something

WE'RE HERE!

Maybe the are used for a URL?-Neru

Yeah, that or just redirected calls I guess

That's a smart call. Maybe we can bruteforce something out of that.

I'll try to put that number down

We reached 150!!!

Oh shit, nice!

Woooooo!!

Hell yeah!

You know, noise.png reminds me of this one ARG that happened on /x/ a while ago, where an image of static appeared that was decoded to be binary, and ended up having a red face in it.

Not saying that's what it is, but we can take a look at any avenue we can. Noise might be meaningless though.

I'm 100% certain I was redirected to that broadcast, but I can try again, maybe it stopped working?

Berdly's number has been changing btw. I had it written down from a few hours ago and its not the same as the one on the blog rn (i think?)

Blue text person here! I can't change my thing for some reason, but the new page- yep it's there

Okay, there we go

Holy crap, this page is a bit unsettling

New link: https://deltarune.com/the_n3w3st_g1rL_g1rL/

NEW PAGE ON THE WATCH

Someone also made the interesting thought that blink might be morse code.
Anyone willing to check that out?

I was thinking that too, but it seems to only go faster when you spam click

It's not Morse Code, no, it has a random function
Did it? Ooo, that's cool

Probably still not real though
Wonder if it means anything? I'm probably gonna check out so I don't think I'll be able to
find out but that's really cool

Alright, cool.

No way Kris did all that, I call cap. To the number below, is it a random gen? It
doesn't seem like it since the numbers both start with 555 and have the same
length

Also- thin gray is right. Birdly number changed.

It went from 5554738292 to **55533370837.**

Not real, yes, but interesting.

It's not the same length green, unfortunately. The new one doesn't even work as a
phone number, it's one digit too long. Also, the old one still very much works,
begging everyone else to try and actually call it if you're able to. It's one of the US
Master Clock broadcasts. Still really curious what that even means? Or maybe
Toby just did that to add a little mystery to it and make it seem spooky?

They probably did that to stop everyone going off track :)]

Should we be checking if older pages are also being updated or something?

Is the snowglobe image going to be blurry? The other locked prizes (wedding ring
and body pillow) aren't like this.

<https://spamton-prizes.fangamer.workers.dev/prizes/snowglobe-1.jpg>

Nah, that's just the locked image, it'll be clear when it's reached.

Have you guys seen ocean.egg? Literally JUST got found
And no, not yet. Still 23.

Did the /code/ page change to 24?

Where is ocean.ogg from? I didn't see that yet

<https://deltarune.com/assets/audio/ocean.ogg>

Bruteforced.

Ah, gotcha. I bruteforced a bunch of this stuff earlier before I realized how you're *actually* supposed to find the pages lol.

WOW man .-.

Code is still 23.

Btw, I think I'll be keeping an eye on /tv/, that seems important. Hasn't changed yet, but it seems very meaningful.

I mean.. It does have tv2

Don't forget about the noise texture. Might be related to a TV static.

Maybe something will appear in the future? (Near the end of the event?)

Where's tv2 from? Only one image reference appears in the source code for the page.

Replace tv.gif with tv2.gif and it loads. It's the only other image cached in the source, so it's from the webpage itself.

Ohhhh, smart!

- Noelle may be the [angel with tattered wings]
- Susie was a big bully to kris
- it's the wristwatch that we get on the "genocide" route. We steal it. She turns on a "tattered wings angel" after we do what we did with the poor kid
- Someone mentioned about a youtube channel pretending to be part of the arg, dismissed as fake.
- A theory about what Kris said to Susie is "Noelle is watching".

"One day, your mom's gonna get sick of you, you little freak. And as soon as that happens..."

Susie laughed. I felt genuinely sick.

"Someone might make you disappear. And she'll finally realize how happy she was without you."

Susie is projecting, right?

Oh... oh dear, i wonder how that's gonna develop over the course of the next several chapters

- Prize #36: 1x Prize Bundle containing Seven (7) T-shirts, One (1) Book, Fifteen (15) Enamel Pins, Four (4) Plush, One (1) Plush Accessory, Three (3) Posters, Two (2) CD

soundtracks, One (1) Vinyl soundtrack, One (1) Office Deskmats, One (1) Bundle of Promotional Goods, Two (2) Keychains, One (1) Beanie Hat (approx. value: \$684.00)

- Prize #37: 1x Engraved Wedding Ring (approx. value: \$113.65)
- Prize #38: 1x Custom Body Pillow with Insert (approx. value: \$72.99)

(from the sweepstake rules)

A suggestion for something that may have answers, the Spamton Monalisa thingy has visual tearing in the promo, maybe that leads to something, I know graphical distortions can hide that kinda thing sometimes.

<https://twitter.com/ShinkoNetCavy/status/1571291919703220224> should this tweet be included in the document? Or what it says

"whoever at Fangamer recorded A Cyber's World from MIDI to MP3 left a discord notification sound in it hahahahaha"

Omg

I really don't think that all the links are the secrets as we have 24/23

Good night!

What onis 24? like what was the link for number 24 I thought we were only on the queen's cupBlink is listed twice on the main doc

Blog now says 24 pages, update pls.e of the soul cause I doubt they'd say kris is "going for a snack".. to me it feels like kris just wanted an excuse to play for a bit and wanted to pass by the piano (which from this description seems to be by the kitchen) then gets distracted by being too "in the zone"

Maybe. I guess I just interpreted it in a way creepier way, imagining him getting stone faced before playing this really jumbled up piano melody in a dark room at night.

-

awee am i the only one that thought that pianpian was nice? like i envisioned noelle listening to kris play while drifting to sleep.. which explains why it fades at the end
It's nice! But just a bit creepy too haha

For sure! This was really cool to be a part of, even if it got pretty chaotic in here for a bit

I missed the doc until just now, lol. Maybe if I get bored I'll read through the history.

Fair enough lol, there is a lot, but there is some actual lore discussion/debate amongst the memes and it was interesting talking about what all this new lore might mean

I wonder if the next dark world will be sky-themed (considering the stars in the map reveal, and the cloud/moon enemies) oh also gonna join the fan discord for this

To me it seems like it'll be themed around TV, and those enemies are most likely themed after the weather channel. Also, I think the stars could maybe be a pun on "movie star" or maybe just Mike's decoration of choice

Oh yeah, it could be TV related too. Though I thought TV would have a more sinister overarcng connection to the story

Maybe! Also, one thing I haven't seen many people talk about is the fact that we're absolutely gonna see Undyne in this chapter because Toriel called her over (something Kris almost certainly orchestrated for a reason) ya undyne and apapyrus too

I hope we see Undyne! And Papyrus... eventually

Sorry! What's your color?

Also colors act a little weird when i try to apply them for some reason, they don't always want to work, so sorry if that gets in the way

Yeah! It was because other peoples' edit colors were bleeding into yours i think
Also yw ^-^

This doc is still VERY laggy for me though, when i type my text is behind my keyboard typing!

Yeah, it is still 43 pages long to be fair, i'm kinda lagging too

I think the doc should be split into another doc so we can continue there instead of here

Maybe... would we periodically copy things over from the active doc into this one?

Whatever the idea is, I can't help right now, I need to sleep o/
